

Category		Trail Name	Description	Area / Getting There
Starting Out		Yodeler	From the magic carpet you can use the tail end of the Yodeler run. This is a perfect first day spot	The magic carpet is walking distance from the Snowshed Lodge
Learning		Easy Street (Area)	This area can help with the transition to more challenging terrain; Easy Street feeds into different trails like Treezy, for those who want to try glades, and Timberline, a terrain park for novices	Take the Ramshead Express; exit to the right and wind back under the lift
Scenic Cruiser		Solitude	Beautiful, isolated trail, cutting through the dense forest on the far left side of Killington Peak	Exit K-1 Express to the left; take Blue Heaven and look for Solitude on the right
Groomer		Bunny Buster	A wide cruising run off of the new Snowden Bubble Lift; you will leave with happy legs and a groomer ripping smile	From the K-1 Base, head down Great Northern until you see the Snowden 6- Pack. Jump off the top and look left
Steep		Rime	A good challenge, this is one of the steepest Blues at the resort; fewer crowds and snow-making make for great conditions	Directly under the North Ridge Quad
Terrain Park		Dream Maker / The Stash	The biggest terrain park at Killington; this Dew Tour Event location has more than 65 natural features, an 18 foot pipe, and an assortment of rails	Exit Skye Peak Express slightly to the right and take Dream Maker Headwall; For more park time, take a left after the lift for the Stash; then take the Snowshed crossover to Dream Maker
Showing Off		Superstar	The epitome of Killington skiing; the Women's Alpine World Cup hosts events here; it's 4,800 feet long with a 1,200 foot vertical	Directly under the Superstar Express
Steep & Deep		Ovation	If it's deep, you need steep and this is the one of the steepest fall lines in the east. Get there early and you can lap it off of the Superstar Quad	Exit Superstar right, follow the cat track briefly, then follow the Ovation signs. Catch your friends at the bottom, no friends on a powder day!
Glades		Low Rider	This is our go-to spot for windy days. Due to the mountain's shape, this trail gets tons of fresh snow	Exit Snowdon Six Express right and make your way through the trees
Fresh Powder		Powerline	Tends to have some of the best conditions on the mountain; ample snowfall and snow-making combine, enabling smooth, pinpoint turns	Exit North Ridge Quad to the right
Steep		Double Dipper / Big Dipper	The Dippers are great for those looking for speed; Double Dipper is a straight shot under the lift; Big Dipper has a similar pitch with glades to navigate	Directly under the Canyon Quad; or stay right and duck into the trees for Big Dipper; the Canyon Quad almost exclusively services this terrain
Bumps (Advanced)		Outer Limits	Considered the longest, steepest mogul run in the East; lap this until your technique is perfect and your legs are numb	Directly under the Bear Mountain Quad; the bumps are softer when it's warmer
